1.0 DUTIES AND RESPONSIBILITIES

A structural welder's role is to erect, join, cut and repair metal structures as dictated by work orders, blueprints, technical drawings and other specifications. This individual must be able to work independently as well as a team to meet deadlines and to process current and future orders in a timely manner befitting the customer and the company.

1.1 Specific responsibilities

- Provide data and analytics to bring a concept to life
- Analyze blueprints and structural drawings to layout framework of a structure
- Possess and execute welds to a high degree of accuracy
- Secure and fasten components using clamps, braces, jacks and bolt straps
- Inspect and evaluate welds to ensure they are free of defect and conform to set specifications
- Employ appropriate welding methods in completing structural fabrications
- Utilize manual and mechanical processes to weld in various positions
- Working knowledge of all welding processes including GMAW, SMAW, MCAW and FCAW
- Carry out welding operations under intense conditions such as extreme heights, confined spaces and inclement weather

1.2 Education, Training and Experience

- A minimum of 3 year's work experience working independently in a shop environment, repairing and maintaining equipment and supplies
- Valid Interprovincial Journeyman Welding Certificate is required
- CWB is an asset but not required

1.3 Skills and Abilities

- Ability to follow written and verbal directions
- Ability to design and fabricate structural welds
- Capable of working at heights
- Keep work area clean and organized
- Must be able to work singularly as well as in a team environment
- Must be fluent in written and verbal English language
- Must be mechanically inclined

2.0 PHYSICAL AND SAFETY REQUIREMENTS

- Ability to lift 80-100lbs.
- Ability to stand for entirety of shift.
- Repetitive bending, reaching, pulling, and lifting.
- Pushing and pulling wheeled carts weighing up to 1000lbs.

- The employee must be adaptable to the unique work conditions that could consist of long and irregular hours. This position requires working outdoors in the shop setting majority of the time with various conditions consisting of: wet, cold, and/or humid conditions at well sites, working near moving mechanical parts, vibration, loud noise, potential fumes or airborne particles, exposure to toxic or caustic chemicals where proper PPE must be donned.

3.0 BEHAVIORAL COMPETENCIES

- Must have attention to detail.
- Possess good communication skills.
- Able to follow proper protocol for incident reporting and emergency situations.
- Good moral character and team player attitude.
- Must be safety conscious.
- Dedication & commitment to team focus common goals.
- Able to be flexible and adaptable to the ever-changing needs of clients and industry.
- Able to withstand the mental and physical stress brought in by the element of an outdoor work environment.
- Fosters a positive working relationship with co-workers, customers, clients and management.
- Must have transportation to and from work
